JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

TURKEY IN ASIA.**Cholera at Samsun.**

The American consul at Trebizond reports May 26 the presence of cholera at Samsun.

Samsun is a port on the Black Sea and is situated in the vilayet of Trebizond.

ZANZIBAR.**ZANZIBAR—Smallpox—Examination of Rats.**

Consul Weddell reports:

During the two weeks ended April 23 there was reported one case of smallpox. The total number of cases from the date of the outbreak, June 8, 1910, to April 23, 1911, was 268, with 145 deaths. The total number of persons vaccinated during the same period was 40,653.

During the two weeks ended April 21 there were examined for plague infection 1,591 rats. No plague-infected rats were found.

CHOLERA, YELLOW FEVER, PLAGUE, AND SMALLPOX.**Reports Received During Week Ended June 9, 1911.**

[These tables include cases and deaths recorded in reports received by the Surgeon General, Public Health and Marine-Hospital Service, from American consuls, through the Department of State, and from other sources.]
